- Write down color sequence and their corresponding pin numbers & LED #
- Resistor orientation DOES NOT matter but LED orientation DOES
- Connect ground to a ground rail and all resistors to that ground rail
- Order: Pin -> Wire -> ABCDE Row -> LED -> FGHIJ Row -> Resistor -> Ground Rail

R	B	G	Y	R	B	G	Y	COLOR
13	12	11	10	9	8	7	6	PIN
8	7	6	5	4	3	2	1	LED
